

“EXPECT TO CHECK”

As a commitment to Patient Safety we want you to expect that we check for identification before any treatment, procedures or specimens are collected.

- ✓ **Expect** that we will place an identification armband on you.
- ✓ **Expect** that we will *check* your identification armband whenever we perform a treatment, procedure, give medication or collect a specimen.
- ✓ **Expect** that we will *check* by asking your first and last name.
- ✓ **Expect** that we will *check* by asking you to tell us your birthdate.
- ✓ **Expect** that we will do our *checks* while we are at your side.
- ✓ We **expect** you to *check* with us.
